CUSTOMER SUPPORT

Peace of mind is a concept Safemark's clients have come to know with our durable solutions, unmatched warranties and superior customer service. Our support team is available Monday through Friday from 8:00am to 5:00pm (EST) for general questions such as safe operations, maintenance, reordering of parts, and other non-urgent concerns.

BATTERY MAINTENANCE

Safemark recommends that safe batteries be changed on an annual basis to avoid any issues that may occur due to battery failure. Visit www.safemark.com/support/ to learn more.

MANUFACTURER'S WARRANTY*

Our hotel safes carry a warranty on mechanical defects for a period of five-years from the original purchase. This warranty is limited to the repair or replacement of the safes that have failed under normal use (determined by Safemark). Warranty does not cover labor, removal, installation or transportation.

EXTENDED WARRANTY*

At the end of the standard Manufacturer's Warranty our customers have the option to extend coverage on the safes. Owning an extended warranty plan protects you from costly repairs and ensures your guests have access to store valuables in a convenient, user-friendly safe. With Safemark's extended warranty program, you extend the life of your guest room safes and keep this valuable guest amenity operating at peak performance. Each program has specific guidelines so contact your sales representative for more detail.

* Safemark's Tribute Series Safes (T 4.0, TJ 4.0, TL 4.0, TS 4.0) have a two-year Manufacturer's Warranty. All other safes carry a five-year Manufacturer's Warranty.
