Safemark's Briefcase 5.0™ was designed with today's guest in mind—large enough to accommodate a laptop and printer, plus ample space for purses, cameras, iPod's, cell phones, and many more travel accessories. Its user-friendly, illuminated keypad makes for easy viewing by all guests, especially the elderly. Operationally, the Briefcase 5.0 safe and industrial Electronic Handheld Override (EHO) are easy to learn and simple to operate. Your property can attain the ultimate peace of mind by choosing our optional Medeco™ UL-rated fail safe override key system.
